

Resume: Priya Nair

Email: priya.nair@email.com | Location: Remote | Portfolio: priya-designs.com

Professional Summary

Creative frontend developer with 6 years of experience building responsive web applications and design systems. Specialist in React, TypeScript, and CSS animation. Strong background in UX collaboration and accessibility standards.

Experience

SENIOR FRONTEND ENGINEER - MediaFlow Studios (2019 to 2024)

- Built component libraries in React and TypeScript used across 12 product teams.
- Led frontend architecture for a SaaS platform with 200,000 monthly users.
- Collaborated with UX designers to implement WCAG 2.1 AA accessibility standards.
- No backend development; all work was client-side JavaScript and CSS.

UI DEVELOPER - AdTech Co. (2018 to 2019)

- Built advertising creative tools using React and Canvas API.
- Integrated with third-party REST APIs (read-only consumption, no API development).

Skills

- Languages: JavaScript, TypeScript, HTML, CSS (no Python)
- Frameworks: React, Next.js, Storybook
- Tools: Figma, Webpack, Jest, Cypress
- No backend, cloud infrastructure, databases, or DevOps experience
- No Python, PostgreSQL, Docker, Kubernetes, or AWS experience

Education

B.A. Graphic Design (minor: Computer Science), UCLA, 2018
