

QA Test Question Bank

For each application: 15 correct-context questions (answerable from the uploaded test PDF, with a verified expected answer) and 10 wrong / adversarial questions (unanswerable, false-premise, or out-of-scope, with the expected honest behavior).

Source documents: test_pdfs/ in the project repository. Ground-truth expected answers were derived by directly reading the actual PDF content, not guessed.

How to use: upload the listed PDF(s) into each app, run the listed endpoint/action, then ask each question and compare the app's answer against the Expected column. Flag any mismatch, hallucination, or 'not found' response where the Expected answer shows the fact IS present in the source document.

App 1 -- Resume Screener

Setup:

- Upload Job Description: app1_jd_senior_backend_engineer.pdf

app1_res

A. Correct-Context Questions (15) -- answerable from the documents

Question	Expected Answer
1. What is the salary range for this position?	\$160,000 - \$195,000
2. How many years of professional experience does Sarah Chen have?	8 years
3. Does Sarah Chen have AWS Solutions Architect certification?	Yes (listed in Technical Skills)
4. What company does Sarah Chen currently work for?	PayCore Inc. (Senior Software Engineer, 2020-2024)
5. Does Marcus Williams have Kubernetes experience?	No -- explicitly states no Kubernetes experience
6. What frameworks does Marcus Williams have experience with?	Flask and Django (not FastAPI)
7. What is Priya Nair's professional background?	Frontend engineer (React/TypeScript) -- no backend experience
8. Does Priya Nair have Python experience?	No -- resume explicitly states 'no Python'
9. How many years of experience does Marcus Williams have?	4 years
10. What is the required years of experience for this role?	5+ years
11. What payment gateways has Sarah Chen worked with?	Stripe and Adyen
12. What is the annual learning and development budget mentioned in the job description?	\$2,000
13. Did Sarah Chen lead a team? How many people?	Yes, a team of 5 engineers
14. What company is hiring for this role?	Velox Payments
15. Who is the best overall candidate and why?	Sarah Chen -- strongest match on required skills, leadership, and certifications

B. Wrong / Adversarial Questions (10) -- should NOT be answered as fact

Question	Expected Behavior
1. Does Priya Nair have Kubernetes experience?	No -- she has no cloud/backend experience at all
2. What is Marcus Williams' Rust programming experience?	Not mentioned anywhere in his resume
3. What is the interview date for this position?	Not mentioned in either document
4. Does the job description mention a signing bonus?	No -- only an annual performance bonus (up to 15%) is mentioned
5. What is Sarah Chen's GitHub username?	Not mentioned (only Marcus Williams' resume lists a GitHub)
6. Is remote work fully allowed for this role, with no office requirement at all?	No -- role is Hybrid (Austin, TX), not fully remote
7. Does Priya Nair have AWS certification?	No
8. What is the health insurance deductible amount mentioned in the job description?	Not mentioned -- only that full health/dental/vision is provided

9. How many separate sick days does the company offer, apart from PTO?	Not mentioned -- only flexible PTO (minimum 20 days)
10. Why did Marcus Williams score higher than Sarah Chen in the screening?	False premise -- Sarah Chen should score HIGHER than Marcus, not lower

App 2 -- Document Diff Analyzer

Setup:

- Upload Document A: app2_terms_v1.pdf

- Upload

A. Expected Changes (15) -- should appear in added / removed / modified

Change Topic	Expected Diff
1. Free account storage	Reduced: 15 GB -> 5 GB
2. Minimum account age	Reduced: 18 -> 16
3. Deleted-file retention period	Extended: 30 -> 90 days
4. Inactive-account threshold / notice	Extended: 12 -> 24 months; notice 30 -> 60 days
5. Annual billing option	Added -- 15% discount for annual billing
6. Price-change notice period	Extended: 30 -> 60 days
7. Payment grace period	Reduced: 7 -> 3 days
8. Refund policy	Added -- 14-day refund window (v1 said 'all sales final')
9. Bulk upload limit	Increased: 1,000 -> 5,000 files/hour
10. Cryptocurrency mining	New prohibition added
11. Uptime SLA	Improved: 99.5% -> 99.9%
12. Maintenance notice window	Extended: 48 -> 72 hours
13. SLA service credit	Increased: 10% -> 15%
14. Termination notice period	Reduced: 30 -> 14 days
15. Governing law	Changed California -> Delaware; arbitration + class-action waiver added

B. Should NOT Be Flagged as Changed (hallucination check)

Item	Expected Behavior
1. Spam / phishing prohibition clause	Identical wording in both versions -- must not appear as a change
2. Company address (400 Tech Blvd, San Francisco, CA 94105)	Unchanged in both versions
3. Mobile app	Not mentioned in either version -- must not be invented as a change
4. Multi-factor authentication requirement	Not mentioned in either version -- must not be invented
5. GDPR reference	Not mentioned in either version -- must not be invented

Bonus (real, not in the count above): v2 also adds 'up to 3 sub-accounts per paid plan' -- a genuinely new clause worth checking the app catches correctly.

App 3 -- FAQ Generator

Setup:

- Upload: app3_smartpay_manual.pdf

- Run 'C

A. Correct-Context Questions (15) -- answerable from the document

Question	Expected Answer
1. What is the fee for a domestic card transaction?	1.9% + \$0.25 per transaction
2. What is the standard settlement timeline?	T+2 (2 business days)
3. How many days do I have to submit chargeback evidence?	7 days
4. What is the transaction limit for standard accounts?	\$10,000 per transaction, \$50,000 per day
5. Is SmartPay PCI-DSS certified? What level?	Yes, PCI-DSS Level 1
6. How often must API keys be rotated?	Every 90 days
7. What happens if I don't complete KYC verification within 7 days?	Account is suspended
8. What is the fee for American Express transactions?	2.4% + \$0.25 per transaction
9. What cryptocurrencies does SmartPay support?	Bitcoin and Ethereum, via SmartPay Crypto
10. What is the dispute win rate for merchants with complete documentation?	68%
11. What does error code 4001 mean?	Insufficient funds -- card declined by issuer
12. How long is transaction data retained?	7 years
13. Is there a fee for refunds within 30 days?	No fee (0.5% fee applies only after 30 days)
14. What support is available on the Enterprise plan?	24/7 phone support, dedicated account manager, Slack connect
15. What is the API response time SLA?	99th percentile under 300ms

B. Wrong / Adversarial Questions (10) -- should NOT be answered as fact

Question	Expected Behavior
1. Does SmartPay support Dogecoin?	No -- only Bitcoin and Ethereum are supported
2. Does SmartPay charge a monthly fee for standard accounts?	No monthly fee
3. What is SmartPay's headquarters address?	Not mentioned
4. Can I get phone support on the Standard plan?	No -- Standard plan is email support only
5. Does SmartPay support Venmo as a payment method?	No -- not in the accepted payment methods list
6. What year was SmartPay founded?	Not mentioned
7. What is the refund fee after 60 days?	No separate tier -- same 0.5% fee that applies after 30 days
8. Is there a setup fee for a standard account?	No -- not mentioned; only 'no monthly fee' is stated
9. Does the Enterprise plan get a discount on processing fees just for being on that tier?	No -- discounts are volume-based (above \$50k/month), not tier-based
10. What is the maximum daily transaction limit for an account with no KYC verification at all?	Standard accounts (pre-verification) are capped at \$50,000/day

App 4 -- Report Summarizer Agent

Setup:

- Upload: app4_nexora_annual_report.pdf

Recomm

A. Correct-Context Questions (15) -- answerable from the document

Question	Expected Answer
1. What was total revenue in 2023?	\$142 million
2. What was the net profit margin?	22%
3. How many active customer accounts does Nexora have?	114,000
4. What is the Net Promoter Score?	67 (industry average: 42)
5. How much revenue did Retail Banking generate?	\$58 million (41% of revenue)
6. What percentage was the year over year revenue growth?	23%
7. How many downloads did NexoraPay get in its first 6 months?	62,000
8. What was the cost-to-income ratio improvement?	Improved from 68% to 61%
9. How many accounts were frozen during the March 2023 cybersecurity incident?	1,200 (no data breached)
10. What is the 2024 revenue target?	\$178 million
11. What was Q3 2023 revenue?	\$37.8 million (the strongest quarter)
12. What was the headcount change during 2023?	731 -> 892 employees
13. What is Nexora's Customer Acquisition Cost?	\$187
14. How many senior roles are unfilled for more than 90 days?	34
15. What is the planned cybersecurity investment for 2024?	\$8 million (a 2024 recommendation)

B. Wrong / Adversarial Questions (10) -- should NOT be answered as fact

Question	Expected Behavior
1. What was Nexora's revenue in 2021?	Not mentioned -- only 2022 (\$115M) and 2023 (\$142M) are given
2. Who is the CEO of Nexora?	Not mentioned
3. What was the customer churn rate?	Not mentioned
4. Did Nexora report a net loss in any quarter of 2023?	No -- false premise, all results were positive
5. What is Nexora's stock ticker symbol?	Not mentioned
6. What was the marketing budget for 2023?	Not mentioned
7. Did the cybersecurity incident result in any customer data being breached?	No -- explicitly 'no data breached'
8. What headquarters city is Nexora based in?	Not stated -- only new regional offices (Austin, Denver, Miami) are mentioned
9. What is the exact calendar date the NexoraPay app was launched?	Not an exact date -- only 'June 2023' / 'Q2' is given
10. Was Q1 2023 the strongest quarter of the year?	No -- Q3 2023 was explicitly the strongest quarter

App 5 -- Policy Triage Agent

Setup:

- Upload: app5_clouddesk_policy.pdf

- Ask e

A. Correct-Context Questions (15) -- answerable from the document

Question	Expected Answer
1. What is the refund window for monthly plans?	7 days from the billing date
2. How long is the free trial?	14 days
3. How long is customer data retained after account cancellation?	30 days
4. What is the Enterprise plan's response time SLA?	1 hour, 24/7
5. How much does the Professional plan cost per month?	\$99/month
6. How is the SLA credit calculated?	10% credit per 0.1% below the uptime threshold
7. How many hours does CloudDesk have to notify customers of a data breach?	72 hours
8. What compensation do customers get after a confirmed data breach?	3 months free service credit + data export + priority migration support
9. Can I get a refund on an annual plan after 30 days?	Prorated refund for unused months, minus a \$50 admin fee
10. What happens if I upgrade my plan in the middle of a billing cycle?	Charged a prorated amount immediately at the new plan rate
11. How many users does the Starter plan support?	Up to 3
12. What is step 3 of the dispute escalation process?	Escalate to Customer Success Manager (Professional/Enterprise plans only)
13. Is there an uptime SLA for the Starter plan?	No
14. What law governs legal disputes under this policy?	Delaware (arbitration required before litigation)
15. What happens if my data exceeds the new plan's storage limit when I downgrade?	Account is locked until data is reduced

B. Wrong / Adversarial Questions (10) -- should NOT be answered as fact

Question	Expected Behavior
1. Is there a special refund window just for the Starter plan?	No -- refund policy depends on billing cycle (monthly/annual), not plan tier
2. Can I get a refund on setup fees?	No -- non-refundable under any circumstances
3. Does CloudDesk offer a 60-day money-back guarantee?	No -- it's 7 days (monthly) / 30 days (annual)
4. What is the phone number for CloudDesk support?	Not mentioned -- only that Enterprise gets 24/7 phone support
5. Does this policy mention a mobile app?	No
6. Does the Professional plan include 24/7 support?	No -- that's Enterprise only; Professional is an 8-business-HOUR response
7. What GDPR-specific data rights does this policy grant?	Not mentioned
8. Can I extend my free trial twice?	No -- only once per account
9. Is the penalty for an acceptable-use violation different for annual-plan customers?	No -- same for all plans (immediate termination, no refund)
10. Does CloudDesk have a bug bounty program mentioned in this policy?	No

C. Bonus -- Triage Ticket Scenarios (test via 'Triage Ticket')

Ticket	Expected Decision
1. "Hi, I was billed for my monthly CloudDesk subscription 5 days ago and I'd like a full refund please."	AUTO-RESOLVE -- clearly within the 7-day monthly refund window, policy permits it
2. "I was billed for my monthly plan 20 days ago and want a refund now."	ESCALATE or clearly denied -- 20 days is outside the 7-day window
3. "I heard there might have been a data breach. What am I entitled to if my account was affected?"	Should reference the real entitlements (72-hour notice, 3 months free credit, data export, migration support) even if escalated
4. "This is absolutely unacceptable. You people are scammers and frauds. I will sue you and get a lawyer involved immediately!"	ESCALATE -- legal threat + strongly negative sentiment, with a real draft reply produced (not an empty/failed response)

App 6 -- Data Analyst Agent

Setup:

- Upload: app6_retailmax_data.pdf

- Ask e

A. Correct-Context Questions (15) -- answerable from the document

Question	Expected Answer
1. What was total revenue in 2023?	\$8,450,000
2. What was the net profit margin?	30%
3. What was the highest performing product category by revenue?	Electronics -- \$3,380,000 (40%)
4. How many total employees were there at the end of 2023?	214
5. What was the average order value?	\$124
6. What was Q3 revenue?	\$2,338,500
7. How many units did the top-selling product sell?	ProSound Wireless Headphones -- 12,400 units
8. What is the customer lifetime value?	\$312
9. What was the return rate?	6.2% of orders
10. What was the marketing ROI?	13.6x overall
11. How many active SKUs are there?	1,842
12. What was the revenue from the North America region?	\$4,225,000 (50%)
13. What is the year-over-year growth rate?	22.1%
14. What was the weakest performing month?	February 2023 -- \$480,000
15. What is the 2024 revenue target?	\$11,000,000

B. Wrong / Adversarial Questions (10, includes original QA-reported failures)

Question	Expected Behavior
1. What is the total sum of all the figures in this document?	Ill-posed/ambiguous -- should give an honest, reasonable response, not hang or crash (originally reported: timed out)
2. How does the lowest value compare to the average?	Ambiguous without a specified metric -- should pick a reasonable interpretation or ask for clarification, not refuse outright (originally reported: blocked)
3. Which item is closest to the mean?	Same as above (originally reported: blocked)
4. What information is NOT present in this document?	Should describe the document's scope/limits reasonably, not fail
5. What was the revenue in 2021?	Not present -- only 2022 and 2023 are given
6. Who is the CEO of RetailMax?	Not mentioned
7. What was the customer satisfaction (CSAT) score?	Not mentioned -- this metric does not appear in this document at all
8. Did RetailMax report a loss in any quarter?	No -- false premise, all quarters show positive revenue
9. What was the revenue from the Automotive category?	Not a real category -- fabricated; actual categories are Electronics, Clothing, Home & Kitchen, Sports, Beauty, Other
10. Is total revenue of \$8.45 million more or less than \$10 million?	Less
